BOSS sikrings-klemme til damp

BOSS high-pressure steam hose safety clamp - 2 safety claws, galvanised forged steel

BOSS safety clamp is developed to secure BOSS steam hose couplings (SKU 5410/5411) against separation under high steam pressure. The construction has 2 safety claws gripping into the hose's outer surface and preventing the hose from slipping back even if the coupling's screw grip fails. The material is galvanised forged steel - a combination withstanding strong-steam exposure without corrosion. Max temperature 210 deg C matches the BOSS steam coupling's range. Used as mandatory secondary securing in brewery, pharma and industrial process where the steam installation must not fail.

Technical specifications

Material	Galvanised forged steel
Wall construction	Safety clamp with 2 safety claws for BOSS steam coupling
Cut to length	No
Manufacturer SKU	5420

Standards and compliance

REACH, RoHS

Dimensions and ordering

The hose is supplied in 3 standard sizes from inner Ø 25.0 mm to 38.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Outer Ø [mm]	Weight [kg/m]	Article no.
25	33	0.2	5420025000
32	42	0.27	5420032000
38	50	0.35	5420038000

The table shows the product's standard dimensions. Weight column is per piece.

Other Particulair microsities

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
