# CONNECT 227

Screw-on soft sleeve for EVA hoses - chemically resistant, grey, reusable

CONNECT 227 is a screw-on soft sleeve specifically developed for EVA hoses in the 373 series (base and AS/EC variants). The sleeve is supplied in grey and is chemically resistant - a combination that makes it ideal for process installations where the EVA hose's flexibility and chemical resistance are central factors. The screw-on construction allows quick mounting and disassembly without tools; the sleeve can be reused multiple times without losing seal integrity. 3 dimensions from ID 32 mm to 50 mm cover the EVA 373 series' standard range.

**Temp:** -20.0 °C to 70.0 °C
