CONNECT PRESS ASSEMBLY 232

Press assembly for BARDUC 382 - food-grade FDA + EU 10/2011, for vacuum and dosing

CONNECT PRESS ASSEMBLY 232 is a press assembly specifically developed for the BARDUC 382 hose, which is a high-temperature food-grade hose in the AIRDUC family. Press assembly means the coupling is pre-fitted and pressed-mounted from the factory - a construction that eliminates the risk of leaks and provides a coupling that behaves as an integrated system with the hose. The seal insert is specifically food-grade approved per both FDA 21 CFR 177.2600 and 178.2010 (US standard) and EU's primary food-contact regulations: EU 10/2011, EC 1935/2004 and EU 2015/174. This makes it ideal for pharma vacuum conveying equipment, dosing systems and brewery installations where process validation requires documented joint integrity and bilateral compliance. 2 dimensions ID 50 and 65 mm match BARDUC 382's standard range.

Temp: -40.0 °C to 90.0 °C

Technical specifications

Material	Body: stainless steel. Seal insert: food-grade compound per FDA + EU food regulation
Wall construction	Press assembly with food-grade seal insert - FDA + EU 10/2011 / EC 1935/2004 / EU 2015/174
Temperature range	-40.0 °C – 90.0 °C
Cut to length	No
Manufacturer SKU	2322964

Standards and compliance

FDA 21 CFR 177.2600 (silicone), fda-21-cfr-178-2010, EU 10/2011, ec-1935-2004, eu-2015-174, food-grade, press-fitted, REACH, RoHS

Dimensions and ordering

The hose is supplied in 2 standard sizes from inner Ø 50.0 mm to 65.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Outer Ø [mm]	Weight [kg/m]	Article no.
50	50	0.4	23200502964
65	65	0.48	23200652964

The table shows the product's standard dimensions. Weight column is per piece.
