CONNECT 241 FOOD Moulded

Pre-fitted moulded food-grade sleeve - gas and liquid tight, factory-assembled

CONNECT 241 FOOD Moulded is a food-grade soft sleeve in a moulded (overmoulded) construction. This means the sleeve is delivered pre-fitted and gas-and-liquid-tight from the factory - a specification that eliminates the risk of leaks in the assembly phase and gives a coupling that behaves as an integrated hose system, not a separate sleeve+hose joint. The wall meets food-grade compliance: EU 10/2011, EC 1935/2004 and EU 2015/174. The moulded construction is particularly valuable in pharma and brewery installations where process validation requires documented joint integrity. 6 dimensions ID 32 to 100 mm cover the AIRDUC FOOD catalogue's standard range.
