

## ACCESSORIES

# CONNECT KAMLOK ALU 253

Kamlok system spare parts set (lever + ring + pin) in stainless steel 1.4301

CONNECT KAMLOK ALU 253 is a kamlok system spare parts set consisting of 2x lever, 2x ring and 2x pin per set. The material is stainless steel grade 1.4301 (= AISI 304) which is the most widespread austenitic steel grade in daily industrial use. The set is developed for maintenance and replacement of worn components in kamlok couplings - a coupling type originally developed for military and oil industry and later spread to industrial applications where fast coupling and uncoupling are critical. Kamlok couplings have two identical halves with levers that interlock with each other, and the lever lock provides a fast tool-free connection. 5 set sizes cover the kamlok catalogue's main range from 1/2 inch to 6 inches. NBG has a broad kamlok catalogue (40+ variants) - this set is one of the most widely used servicing solutions.

## Technical specifications

<b>Material</b>	Lever, ring, pin: stainless steel 1.4301 (= AISI 304)
<b>Wall construction</b>	Spare parts set: 2x lever + 2x ring + 2x pin per set, stainless steel
<b>Cut to length</b>	No
<b>Manufacturer SKU</b>	5020

### Standards and compliance

aisi-304, 1-4301, REACH, RoHS

## Dimensions and ordering

The hose is supplied in 5 standard sizes from inner Ø None mm to None mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Weight [kg/m]	Article no.
0.037	5020000000
0.12	5020000001
0.115	5020000002
0.17	5020000003
0.408	5020000004

The table shows the product's standard dimensions. Weight column is per piece.
