

## ACCESSORIES

# Pakning til klau-kobling

Oil-resistant gasket for claw couplings with 42 mm lug distance - spare part per DIN 3489

Oil-resistant gasket developed for spare-part replacement on standard claw couplings with lug distance 42 mm (per DIN 3489). The seal is critical for the coupling's leak-free performance - a worn seal is the most common failure source in compressor installations and should be replaced at the first sign of leakage. Oil resistance makes it suitable for compressor air where mineral oil mist may occur.

## Technical specifications

<b>Wall construction</b>	Oil-resistant gasket for claw coupling lug 42 mm
<b>Cut to length</b>	No
<b>Manufacturer SKU</b>	5214

### Standards and compliance

REACH, RoHS

## Dimensions and ordering

The hose is supplied in 1 standard sizes from inner Ø 42.0 mm to 42.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Weight [kg/m]	Article no.
42	0.006	5214042000

The table shows the product's standard dimensions. Weight column is per piece.

## Other Particulair microsities

---

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
