

## ACCESSORIES

## Europa fjeder-belastet kontraventil

Europa spring-loaded check valve with female thread on both sides - brass body, NBR seal

Europa is a spring-loaded check valve developed for water and gas installations where one-way flow must be secured. The construction has female thread on both sides per BSPP/G-thread, making it easy to integrate into existing pipe systems. The body material is brass - a standard material withstanding normal water process without corrosion. The seal is NBR and the sealing plate stainless steel 1.4301. The spring is similarly stainless steel 1.4301. The valve can be installed horizontally, vertically or oblique (universal orientation). Working pressure varies 18-25 bar depending on dimension. Typically used in process water installations, water treatment and pneumatics where backflow must be prevented.

## Technical specifications

<b>Material</b>	Body: brass. Seal: NBR. Sealing plate and spring: stainless steel 1.4301
<b>Wall construction</b>	Spring-loaded check valve with female thread, universal mounting orientation
<b>Cut to length</b>	No
<b>Manufacturer SKU</b>	5264

### Standards and compliance

REACH, RoHS

## Dimensions and ordering

The hose is supplied in 6 standard sizes from inner Ø 13.0 mm to 50.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Press. DIN [bar]	Weight [kg/m]	Article no.
13	25	0.193	5264013000
20	25	0.305	5264020000
25	25	0.43	5264025000
32	18	0.634	5264032000
38	18	0.867	5264038000
50	18	1.312	5264050000

The table shows the product's standard dimensions. Weight column is per piece.
