

## ACCESSORIES

## Klau-laasekapper (blank cap)

Claw coupling blank caps per DIN 3489 - blank cap for closing open claw coupling, malleable cast iron

Claw coupling blank caps are developed to close an open claw coupling temporarily - e.g. during transport, storage or between use phases. The construction is a simple solid coupling half engaging into a standard claw coupling and locking via quarter turn. The material is malleable cast iron per DIN 3489 with NBR seal. Lug distance 42 mm matches the standard claw coupling system. Typically used in compressor installations, compressed air tools and pneumatic equipment where an open coupling must be closed to prevent pressure loss or system contamination.

## Technical specifications

<b>Material</b>	Malleable cast iron. Seal: NBR. Colour: black
<b>Colour</b>	black
<b>Wall construction</b>	Claw coupling blank cap per DIN 3489
<b>Cut to length</b>	No
<b>Manufacturer SKU</b>	5227

### Standards and compliance

din-3489, REACH, RoHS

## Dimensions and ordering

The hose is supplied in 1 standard sizes from inner Ø 42.0 mm to 42.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Press. DIN [bar]	Weight [kg/m]	Article no.
42	10	0.134	5227000000

The table shows the product's standard dimensions. Weight column is per piece.

## Other Particulair microsities

---

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
