

ACCESSORIES

Klemmskaller (safety clamps)

Clamping shells (safety clamps) - enclosing securing shells for coupling installations

Clamping shells are enclosing securing shells mounted around an existing coupling to provide secondary mechanical securing. Typically used on high-pressure installations where an opened coupling could cause whip-back or explosive uncoupling.

Technical specifications

Material	Galvanised or stainless steel
Wall construction	Enclosing safety shell
Cut to length	No
Manufacturer SKU	5561

Standards and compliance

REACH, RoHS

Dimensions and ordering

The hose is supplied in 2 standard sizes from inner Ø 50.0 mm to 100.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Weight [kg/m]	Article no.
50	0.385	5561050000
100	0.88	5561100000

The table shows the product's standard dimensions. Weight column is per piece.

Other Particulair microsities

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
