

ACCESSORIES

Perrot kobling-system

Perrot coupling system with safety clamp assembly type CK 78 - hot dip galvanised steel

Perrot is a German coupling system developed for high-pressure water and slurry transport, particularly in agriculture and construction sites. Our Perrot coupling is a female coupling with safety clamp assembly type CK 78 - a combination of hose tail, safety collar, lever lock ring, beaker and sealing ensuring a leak-free joint under high pressures. The material is hot dip galvanised steel withstanding slurry, chemicals and UV exposure better than standard galvanising. The seal is SBR. Typically used on agricultural pump installations, slurry tankers and industrial water transport where robustness and frequent disassembly are required.

Technical specifications

Material	Body: hot dip galvanised steel. Seal: SBR. Colour: black
Colour	black
Wall construction	Female coupling with safety clamp assembly type CK 78
Cut to length	No
Manufacturer SKU	5733

Standards and compliance

REACH, RoHS

Dimensions and ordering

The hose is supplied in 1 standard sizes from inner Ø 102.0 mm to 102.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Press. DIN [bar]	Weight [kg/m]	Article no.
102	10	5.644	5733102102

The table shows the product's standard dimensions. Weight column is per piece.

Other Particulair microsities

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
