

ACCESSORIES

Safe-Lock Kamlok part D

Safe-Lock Kamlok part D - securing solution for kamlok couplings with anti-blow-off mechanism

Safe-Lock Kamlok part D is a securing solution for standard kamlok couplings. Where a standard kamlok can open on unintentional lever movement, Safe-Lock has a secondary lock preventing the lever mechanism from activating without specific release button activation. This is critical in chemical, gas and high-pressure applications where unintentional opening would pose a safety risk. Part D indicates the kamlok system's specific variant - cross-check your existing kamlok catalogue.

Technical specifications

Material	Stainless steel or aluminium (kamlok grade)
Wall construction	Safe-Lock kamlok part D with anti-blow-off
Cut to length	No
Manufacturer SKU	5607

Standards and compliance

REACH, RoHS

Dimensions and ordering

The hose is supplied in 3 standard sizes from inner Ø 25.0 mm to 75.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Weight [kg/m]	Article no.
25	0.18	5607001
50	0.38	5607002
75	0.62	5607003

The table shows the product's standard dimensions. Weight column is per piece.

Other Particulair microsities

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.

particulair.eu/ex-vac	ATEX and ACD vacuum cleaners for explosion hazard zones
particulair.eu/vace	Nozzles and accessories for critical environments
particulair.eu/life-science	Vacuums for pharma and cleanroom
particulair.eu/hardo	Explosion-protected electrical Ex-equipment
