

## ACCESSORIES

## Slange-tylle (hose coupling)

Hose coupling - simple coupling between two hose ends without intermediate pipe connection

Hose coupling is a basic double coupling connecting two hose ends directly. Differs from hose mender (5330) in different geometric configuration. Used for standard hose-to-hose coupling in industry.

## Technical specifications

|                          |                           |
|--------------------------|---------------------------|
| <b>Material</b>          | Galvanised steel or brass |
| <b>Wall construction</b> | Hose-to-hose coupling     |
| <b>Cut to length</b>     | No                        |
| <b>Manufacturer SKU</b>  | 5327                      |

### Standards and compliance

REACH, RoHS

## Dimensions and ordering

The hose is supplied in 3 standard sizes from inner Ø 13.0 mm to 32.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

| Inner Ø<br>[mm] | Weight<br>[kg/m] | Article no. |
|-----------------|------------------|-------------|
| 13              | 0.025            | 5327013000  |
| 20              | 0.05             | 5327020000  |
| 32              | 0.105            | 5327032000  |

The table shows the product's standard dimensions. Weight column is per piece.

## Other Particulair microsities

---

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
