

ACCESSORIES

Whipcheck slange-sikrings-kabel

Whipcheck hose security cable - prevents hose whip-back on unintentional coupling separation

Whipcheck is a safety solution for high-pressure pneumatic and steam installations where a separated coupling can cause violent hose whip-back. The cable is mounted between two coupling points and prevents the hose from flailing out of control if the coupling should separate. Critical in industrial compressed air systems.

Technical specifications

Material	Galvanised steel wire
Wall construction	Security cable between two coupling points
Cut to length	No
Manufacturer SKU	5586

Standards and compliance

REACH, RoHS

Dimensions and ordering

The hose is supplied in 2 standard sizes from inner Ø 25.0 mm to 50.0 mm. Each size has its own article number. Standard roll length is typically 10 m, and the hose can be cut to length.

Inner Ø [mm]	Weight [kg/m]	Article no.
25	0.18	5586025000
50	0.38	5586050000

The table shows the product's standard dimensions. Weight column is per piece.

Other Particulair microsities

We build specialised microsities for critical industries. Each site provides in-depth product data, documentation and expert guidance for the domain it covers.
